SELF-ORGANIZING
NETWORKED
SYSTEMS

Lakeside Labs is a science and technology cluster in the area of information and communication technology. We focus on the future-oriented topic of self-organizing networked systems. Lakeside Labs offers space for creative ideas and high-quality research on an international level. It was founded in 2008 and currently funds a team of 18 scientists, project managers, and assistants.

For our third stage of expansion, we are looking for **research staff members** (PhD students, PostDocs, senior PostDocs) with interest in one or more of the following areas:

- Artificial intelligence and decision support
- Collaborative sensing and context recognition
- Distributed time synchronization
- Multimedia systems
- Signal processing
- Theory of self-organizing systems
- Traffic informatics
- Unmanned aerial vehicles
- Wireless communications and networking

Candidates should be highly motivated to publish in high-tier journals and conferences and to attract funding from external sources. Employment will be at Klagenfurt University.

We are also looking for **research managers** with interest in technology transfer. Candidates should have project management skills, experience with funded projects & networking skills. Employment is at Lakeside Labs GmbH.

Please submit your documents as a single pdf file to applications@lakeside-labs.com

The documents should include a letter of interest, curriculum vitae, academic certificates and courses, list of publications, and contact details of two references. Selected candidates will be invited for interviews.

We offer competitive salaries coupled with a nice working atmosphere in beautiful southern Austria. Our business language is English.

Projects are conducted in a cooperation of Klagenfurt University, Lakeside Labs GmbH, and other research institutions.

The Faculty of Technical Sciences of **Klagenfurt University** consists of 20 research groups and offers master and PhD programs in information technology, informatics, and technical mathematics.

Lakeside Labs GmbH is the management platform of the research cluster. It is located at the Lakeside Science & Technology Park, adjacent to the university campus and international IT companies.

Lakeside Labs is committed to increasing representation of female and international staff members and particularly encourages applications from such candidates.
